PROFESSIONAL SUMMARY

Python Developer with hands-on experience building scalable web applications using Python, Django, and Django REST Framework. Proficient in designing and consuming REST APIs, implementing JWT authentication, database management with PostgreSQL, and backend optimization. Adept at delivering clean, maintainable code in Agile environments.

PROFESSIONAL EXPERIENCE

Python Developer — Swiftsoft Infotech Services Pvt. Ltd., Hyderabad, India *Aug 2024 – Feb 2026*

- Developed and maintained backend applications using Python, Django, and Django REST Framework.
- Built RESTful APIs for expense management, authentication, reporting, and dashboard functionalities.
- Implemented JWT-based authentication and role-based authorization for secure API access.
- Managed PostgreSQL databases with Django ORM, focusing on query optimization and efficient data handling.
- Integrated pagination, filtering, and search functionalities to improve API performance.
- Performed API testing with Postman, debugging, and supported deployment activities.
- Collaborated in Agile development processes with cross-functional teams using Git and GitHub.

PROJECTS

Expense Management System with Analytics Dashboard

Python, Django, Django REST Framework, PostgreSQL, JWT, Pandas, Chart.js, Git

- Built a scalable expense management system to track personal and organizational financial transactions.
- Designed REST APIs for expense tracking, category management, budgeting, and analytics reporting.
- Implemented JWT authentication and role-based access control for secure user management.
- Optimized PostgreSQL database queries using Django ORM for efficient data retrieval.
- Developed dashboards with graphical analytics for monthly and category-wise expense analysis.
- Added report generation, filtering, pagination, and search features to enhance usability.

Student Management System

Python, Django, SQL

- Developed a web-based system for managing student records with full CRUD functionality.
- Built an admin panel to handle student data including names, courses, and grades.

TECHNICAL SKILLS

Languages: Python, SQL

Frameworks: Django, Django REST Framework (DRF)

API & Auth: REST APIs, JWT Authentication, OAuth, CRUD Operations

Databases: PostgreSQL, MySQL, SQLite, Django ORM

Tools: Git, GitHub, Postman, VS Code, Power BI

Concepts: API Development, Authentication & Authorization, Pagination, MVC Architecture, Debugging, Deployment Basics

EDUCATION

Bachelor of Technology — Computer Science & Engineering

Narayana Engineering College, Gudur | Graduated: May 2024

CERTIFICATIONS

- Python Full Stack Development
- Django & REST API Development
